**You can see my Payment proof at the end of this guide**

99% of the people reading this have been told that money can ONLY be earned with hard work! Well I'm going to prove that WRONG and tell you that you can earn \$2500 a month with extreme patience and 5 minutes of your time each day.

**Let me set something straight. THIS IS NOT A GET RICH QUICK SCHEME!**

Introducing Paid To Click Programs. Neobux is an advertising company where advertisers pay them and they pay you to view it. It will take a while before you really start earning big \$ but I've seen people easily earning \$50 a day! Dont believe me? Want proof to see that this is not a scam? PTC Investigations actually rated this website as an ELITE:

<http://ptc-investigation.com/NeoBux.aspx>

Neobux has paid out about over \$20,000,000 (Yes that much) and has more than 3,000,000 users. Now imagine the possibilities!

This Strategy Guide will teach you how to make REAL money with them, without paying them a thing. The only catch is you won't be making \$50/day right off the bat. You will be making a few cents when you first start. The name of the game is called PATIENCE. Now, with this method, I won't be investing any money to earn money. If you have money to invest, by all means, do it and you'll see results faster than mine.

The key to making money on NeoBux is through referrals. It's simple, if you don't have referrals, you won't make money. You can rent referrals directly from NeoBux. The referrals are

real people (NOT BOTS) and cost 25 cents a month each. Some will be active and some won't. To "recycle" a non-active referral for an active one you have to pay 7 cents. It may seem like a lot, but it's worth it. If you don't recycle inactive referrals, you will lose money.

## Okay enough chat let's begin!

Sign Up To NeoBux Here: [Neobux](#)

### Step 1:

Create a Paypal account here: [paypal](#) or [alertpay](#) Its really easy and will take only 5 mins.

### Step 2:

Start Clicking Your Ads Every day, When you reach 75 cents by clicking on your own ads (if you don't invest money) you are able purchase 3 referrals (DO NOT BUY REFFS YET!), it takes a few days to earn the 75 cents on your own and people are so eager to buy referrals that they just purchase as soon as their account reaches 75 cents. When people do this they do not realize that they do not have enough money to maintain their rented referrals and their referrals eventually are taken away because they can't pay for them.

### Step 3:

Ok so before you rent referrals you should earn \$3 by clicking on your ads (Or You Can Invest For Quickness) and then transfer it to your rental balance. This way you have \$1 per referral and you will easily be able to recycle them if they are not active or pay to keep them for one more month. It will take a while to get \$3 on your own, but this way you will be able to keep your referrals and exchange the inactive ones for active ones without the fear that you will not be able to pay for them.

#### **Step 4:**

Once you have your \$3 in your rental balance purchase 3 referrals, Autopay is another must. As soon as you rent your first 3 referrals turn Autopay on (you will find this on the page where your referrals are listed). Referrals cost 30 cents a month to keep. Instead of you paying for the referral, they pay for themselves as long as you have Autopay turned on. What it does it subtract one of the advertisements your referral views each day and puts it towards the 30 cents that referral needs to stick around for another month. So you get one less penny from each referral, but they will be your referral as long as they are active.

#### **Step 5:**

Cashing out too early is a huge problem for people that use NeoBux. When you request a payment it is INSTANTLY transferred into your Alertpay/Paypal account. In order to see if NeoBux is indeed legit (which it is) many people will earn a dollar by clicking and then cash it out. Woo-hoo. You now have a WHOLE DOLLAR in your Paypal account. That dollar should have been put towards buying referrals. With this strategy you will be putting \$3 into your rental balance before you buy 3 referrals. So \$1 per referral. Keep renting referrals by increments of 3 (you can rent by higher increments later as your referrals make you more money) and continue until you have 300 referrals. This will take quite some time. This is where most people flake out. When you reach 300 referrals, stop buying referrals and just maintain the ones you already have. Keep doing this until the money builds up to about \$100 and you can use \$90 of it to pay for golden. \$100 won't take very long at all to get once you have 300 referrals and once you upgrade to golden your earnings will DOUBLE. This is the great part. Golden costs \$90 a year but instead of getting half a cent for every advertisement your referral views, you get 1 cent. Your earnings double. That's all there is to it.

#### **Step 6:**

Keep renting new referrals after you upgrade to golden and don't cash out. Remember, you haven't cashed out at all, and you shouldn't until you have 2000 referrals. When you have 2000 refs maintain and manage them till you have enough for cash for Ultimate. Once your Ultimate rent refs till you have about 7000 refs.

#### **Why 7000 refs?**

Lets work on a avg of 0.75 referal clicks a day.  $7000 \times 0.75 = 5250$  clicks a day, which means **you earn \$50 A DAY!** From here you can rent more to maximize your profits or just manage them and enjoy the income! And that's the end of the strategy.

**Remember sign up here : [Neobux](#)**

## To your success!

**For those of you who started renting refs. Here are some guidelines:**

1. Choose a time of day that you can click ads and eventually manage your referrals at the same time everyday.
2. Click all available ads everyday (when you get referrals this is necessary to earn from referral clicks).
3. Utilize all free methods of advertising to gain any direct referrals. Talk it up with your friends and relatives. Put a tagline on your e-mail signature. Post in forums. Use free traffic exchanges.
4. Once your account balance reaches \$2. Transfer this money to your rental balance and rent 3 referrals. It is only \$0.90 to rent the referrals but you will need the remainder to properly manage the referrals.
5. Put the autopay function on.
6. If a referral of yours has not clicked today or yesterday and has click average of less than 2.0 then recycle it (\$0.08) and get a new referral. If they have a click average of between 2.0 and 4.0, I will give them 4 days before I recycle them. I will give those with an average of over 4.0 seven days to return and click just because I would hate to recycle a great referral just because they were on vacation for a week.
7. Whenever, one of your referrals goes below 20 days before next payment pay to add another 30 days. Below 20 days, the autopay function does not work and you will not get the savings for that referral.
8. Every time your account balance reaches \$1 transfer the money to your rental balance. At first when you are only making a couple of cents per day it is important to keep enough in your rental balance to maintain your recycling activity because you can only transfer in \$1 increments. Once

you can complete this transfer and have at least \$2.40 in your rental balance rent another 3 referrals.

9. Continue this process until you are making a \$1 a day in your account balance. At this point you can begin renting in bigger chunks of referrals every 7 days. Never rent a number of referrals that is greater than 33% of your existing totals as these will become difficult to manage through recycling with your earnings.

10. It will take a while but continue the above listed process until you reach 300 referrals. At this point stop renting and just maintain your referrals. Accumulate the earnings until you can pay for the upgrade to golden.

11. Once golden, maintain your referrals as before. Every week continue to rent referrals until you hit the 2000 refs mark. Any money that you are not sinking into referral maintenance or renting is profit for you.

## PAYMENT PROOF
